SELF CONTAINED

LAS Vegas welcomes The Container Store, a leading retailer in storage and organizational products, to its new home at Town Square on May 12.

The 22,000-square-foot space is the company’s 55th store and its first in Nevada. With 16 signature lifestyle departments, including closet, kitchen, office, travel, gift packaging and laundry, The Container Store offers more than 10,000 products and provides solutions ranging from the smallest to the most intimidating organizational challenges.

“Whether you have a contemporary design aesthetic or a more traditional, there is something in every color and pattern,” says Audrey Robertson, public-relations director for the retailer.

During grand-opening week, The Container Store will donate 10 percent back to the Junior League of Las Vegas.
